

FLVC Youth Led Grants Guidance Notes

Youth Led Grants is a Welsh Government initiative enabling young people to develop skills and gain experience in youth leadership by leading local volunteering projects.

FLVC Youth Led Grants are available for young people to start volunteering projects in communities across Flintshire. Grants of £500 or £1,000 can pay for equipment and resources needed to kick start projects which lead to worthwhile volunteering activities.

❖ **All applications for grants must be for a project that is youth-led**

All groups asking for money from us should be for projects instigated and led by young people. Young people should be fully involved in the project from the beginning to the end and should have their say in exactly what happens.

❖ **The project being set up by the young people must include voluntary activity**

The project should have young people involved who are willing to take part. No one involved should make profit for themselves from the activities.

❖ **The majority of young people involved in the project are aged between 14-25 years old**

Most of the young volunteers in the project should be between the ages of 14 and 25. If your group is worried about this point, please contact us to talk it through.

❖ **The project taking place is in Flintshire and will benefit people from Flintshire**

The project taking place must be shown to benefit the young people and the communities in Flintshire

❖ **We welcome applications that support one or more of the following 'Well-being of Future Generations Act (2015)' goals:**

1. [A Prosperous Wales](#) – tackling poverty and improving life chances
